PROFESSIONAL EXPERIENCE

Web Development Intern, Indian Cyber Crime Coordination Centre (I4C)

Feb 2026 – May 2026

Remote

- **Developed** responsive web application modules using the **MERN stack**, primarily focusing on **React.js** components and frontend logic.
- **Implemented** reusable UI components and assisted in managing application state to improve code organization and user interface consistency.
- **Contributed to** frontend-to-backend integration by consuming **RESTful APIs**, ensuring proper data display and synchronization with the server.
- **Utilized Git and GitHub** for version control and collaborated with the development team through code reviews and structured workflows.
- **Enhanced** mobile responsiveness across various devices by applying CSS best practices and flexible grid layouts.
- **Assisted in debugging** and troubleshooting technical issues to ensure a smooth and functional user experience across the application.

PROJECTS & RESEARCH

Machine Learning Framework for Air Quality Index Forecasting (Research Paper),

Jan 2026 – May 2026

Team Lead

- **Led a research team of 4** to architect an ML-based forecasting framework for major Indian metros, including Delhi, Mumbai, Chennai, and Kolkata.
- **Spearheaded Data Engineering** by managing and preprocessing large-scale environmental datasets, integrating meteorological parameters and pollutant levels.
- **Implemented Supervised Learning models** to identify non-linear atmospheric patterns, utilizing **RMSE, MAE, and R^2** metrics to ensure high model reliability.
- **Conducted Feature Engineering** to analyze spatio-temporal correlations, achieving superior prediction accuracy compared to traditional statistical methods.
- **Presented research findings** to faculty stakeholders, demonstrating the framework's utility for real-time monitoring and smart city policy planning.

Medicrate: Medicine Delivery Platform, Project Lead & Frontend Developer

Dec 2025 – Feb 2026

- **Developed the frontend interface** using **HTML, CSS, and JavaScript** for a medicine delivery project.
- **Built core user screens**, including pharmacy browsing, product listings, and the checkout flow.
- **Focused on layout consistency** and responsive design to ensure a functional user experience across devices.
- **Structured application navigation** to simulate a standard end-to-end user journey for medicine ordering.

SKILLS

Programming

- C++ (Proficient)
- Python (Scripting & Basics)
- JavaScript (ES6+)
- HTML5
- CSS3

Computer Science Fundamentals

- Data Structures & Algorithms (DSA)
- Object-Oriented Programming (OOP)
- Algorithm Analysis & Complexity

Soft Skills

- Team Leadership
- Analytical Thinking
- Technical Communication
- Collaborative Development
- Adaptability

Web Technologies

- React.js
- Node.js
- Express.js
- RESTful APIs
- MERN Stack

Tools & Frameworks

- Version Control (Git, GitHub)
- VS Code, Jupyter Notebook

Core Concepts

- Object-Oriented Programming (OOP)
- Basic Algorithm Analysis

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science (Big Data Analytics),

Chandigarh University

Aug 2022 – Jun 2026

Mohali, Punjab, India
